

Founded in 1982 by two former Tempe High School graduates, the Tempe All-City Association is a group of individuals dedicated to recognizing the scholastic and athletic achievements of well-deserving student-athletes from within the Tempe Union High School District. Recognition is primarily achieved through three awards banquets each year, where male and female student athletes who, to the extent applicable, won his or her respective event at a City-wide meet or match, or has been selected by coaches within the Tempe Union High School District, are treated to dinner and an awards ceremony. Every student-athlete who is recognized for his or her achievement receives a plaque and a color picture commemorating the honor. In addition, the Tempe All-City Association grants two \$500 scholarships annually, one to a deserving female student-athlete, and another to a deserving male student-athlete, from within the Tempe Union High School District.
